

## DOWNLOAD THE MOBILE APP

## CONNECTING VIA BLUETOOTH

Open the Stingray app.  
It will appear as a bluetooth device in the device list.  
Click on it to pair and take control.

## SETTING UP WIFI

Use the “**Add Device**” button in the Stingray app, or the “**Add a Blizzard Device**” button in the Device Config section of the At Full app. Then follow the instructions to assign your network’s name and password.

## LED COLOR CODES

- **Green (solid):** WiFi connected
- **Green (blinking):** WiFi config ready, waiting to pair
- **Green (pulsing):** WiFi config found, connecting to network
- **Yellow (blinking):** Failed to connect to WiFi
- **Red (solid):** Factory reset pending, hold for 3s to reset
- **Blue (solid):** Paired over BLE
- **Blue (blinking):** Ready to pair over BLE
- **Purple (blinking):** Performing software update

## BUTTON COMMANDS

- Double Tap:** Switch between WiFi and Bluetooth modes
- Triple Tap:** Enter or exit factory reset mode
- Long Press (3 Seconds):** Confirms factory reset
