

**ACT-24TC 2.4 GHz Bodypack Transmitter**

The MIPRO ACT-24TC bodypack transmitter features a unique adaptive algorithm with a 4 frequency spread spectrum hopping technology that avoids the most commonly used channels, channels 1, 6, and 11, in addition to other interference in the in the 2.4 GHz spectrum. It is a durable, miniature, lightweight rechargeable bodypack. The MIPRO ACT-24TC is innovative, reliable and offers the premium performance needed by today's audio professionals.

**ACT-24TC Features**

- Miniature, durable, lightweight and compact design
- 4 stage LED battery status turns red under low battery conditions
- Illuminated audio mute button easily indicates AF status
- Connector for optional MJ-70 remote mute switch
- Selectable impedance for mic, guitar/line inputs
- Silent on/off switch
- One-touch ACT syncs transmitter and receiver automatically
- Mini-XLR connectivity with threaded bayonet attachment
- Detachable belt clip with 180° rotation
- Included rechargeable lithium ICR-18500 battery and smart charging cradle maintains a high charge capacity for up to 600 charge cycles

**Specifications**

Frequency Range	2.4 - 2.4835 GHz
Channel Set-Up	ACT Sync
RF Output Power	2 mW / 10 mW switchable
Transmitting Mode	Proprietary adaptive algorithm with 4 frequency spread spectrum hopping
Max Input Level	6.5 dB V
Optional Microphones & Cables	MU53LX, MU53HNS, MU55LX, MU55HNS, Avlex HS Series, MU40GX Inst. Cable
Battery	IRC-18500 rechargeable lithium x1
Battery Life	25-minute fast charge provides up to 1 hour operation Minimum 10 hours of operation per 4-hour full charge
Dimensions	2.5 × 2.8 × 1 "
Weight	2.2oz (excluding batteries)
