

FULLY ADJUSTABLE - LIGHTWEIGHT HEADSET MICROPHONES

ADJUSTS TO A PROPER FIT ON HEADS OF ALL SIZES

Galaxy Audio's Fully Adjustable Headset Microphones are compact and fully adjustable, fitting most any head shape or size. The "Boom" stem for the element can be easily adjusted for optimal mic placement, and the flexible support band can be shortened or lengthened to fit the head size of the performer, whether a child or adult.

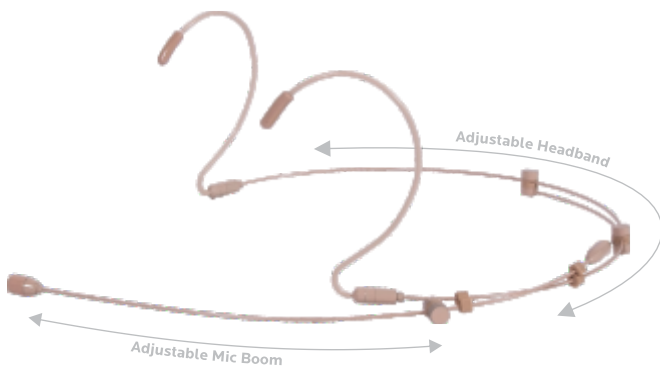

The Ear Hooks fold down flat for compact, safe storage and easy transport. The Fully Adjustable Models are available in Galaxy Audio's popular Model 4 (Omni-directional) or Model 8 Mini (Omni) microphone elements. These low-profile mics are inconspicuous and won't be a visual distraction during performance.

As with the other HSM Models, these models come standard with (4) cables that are wired for your choice of transmitter from most other popular microphone brands. Whether you are needing headsets for a child's on-stage performance or you're an adult seeking a comfortable fit for any application, the Fully Adjustable Headset microphones allow for secure, accurate, and inconspicuous performance.

- Folds Flat
- Headband Adjusts from 8.5" to 15"
