# WIRELESS DMX MODULE

(M/N 900-3601)

Compatible with LumenRadio CRMX Systems
Wireless Solutions (G2, G3, G4, G4S 2.4GHz Mode)

STEP 1

Find the port on the light fixture marked
with the Litepanels® COMMS logo.
Open the protective cover if necessary.

Insert the MODULE
completely into the PORT,
ensuring that the keyway
on the MODULE aligns with
the key on the PORT.

KEY ⟷ KEYWAY

PORT   **MODULE**

STEP 2	On the light fixture's onscreen menu, select `SETTINGS → IN/OUT SELECT →WIRELESS DMX IN`
STEP 3	To connect to wireless transmitter, select `SETTINGS → DMX SETTINGS → WIRELESS DMX → LINK RADIO`
STEP 4	Activate RF Link on the wireless trans- mitter (not included).
STEP 5	To set the desired DMX address, go to `SETTINGS → DMX SETTINGS →DMX ADDRESS`
STEP 6	Position the omni-directional antenna on the Wireless DMX Module for max signal strength.
