

6-Bay Charger

AC CHG406

QUICK START GUIDE

Assembling Charger 406

1. Insert the clear plastic dividers into the slots at the top of the charger base. The smooth, curved long edge of the plastic divider should face outward with the clips on the bottom long edge holding the barrier firmly in place.
2. Connect the USB cables provided into the USB ports on the side of the device labeled '5V/2.4A'.
3. Insert the power supply cord into the charger on the side port of the device next to the USB ports, labeled 'AC100-240V 50/60Hz'.
4. Plug the line cord into a wall outlet. The AC CHG406 will power on.

Charging WAV Pro Wi-Fi Receivers

1. Ensure USB-A cable ends are fully inserted into the USB ports on the AC CHG406 charger base.
2. Plug the USB-C end of cables into the bottom of your WAV Pro Wi-Fi Receivers.
3. Place the WAV Pro Wi-Fi Receivers into the slots on the charger. (Slots function is to hold the receivers in place.)
4. If the LED lights are enabled, they will blink as the device charges.

Important Note on the Divider On/Off Switch

The Divider On/Off switch does not affect the charging power flow. When turned on, the LED lights will indicate charging. However, the LED lights will not blink at a consistent pace and may even turn off for longer than expected. This behavior is normal, and the charger is working correctly.

Recycling Instructions

Help Williams AV protect the environment! Please take the time to dispose of your equipment properly.

Please Recycle

Please do NOT dispose of your equipment in the household trash. Please take the equipment to an electronics recycling center for proper disposal.

Warranty

The AC CHG406 has a limited (1) one-year warranty from the original date of purchase that covers any component failures and manufacturing defects. Included cables or other accessories are covered for 90 days. If you have trouble with your charger, call toll-free for customer assistance:

1-800-843-3544 (U.S.A.) or 1-952-943-2252 (Outside the U.S.A.)

If it is necessary to return the charger for service, your customer service representative will give you a Return Authorization Number (RA) and shipping instructions.
