

# NEO PLAYBACK CONTROLLER

Adding to our NEO family of products is the NEO Playback Controller. This rack-mount device is designed to store and run preprogrammed shows using the same powerful NEO Lighting Control Console operating system software. The NEO Playback Controller can sit on a LAN or operate independently for theatre, themed entertainment productions and more.

We think you will find the NEO Playback Controller a worthy successor to a proud history of iconic consoles that have had the honor of bearing the Strand name.

# NEO PLAYBACK CONTROLLER
