

Sublime Techmaster submaster (option)

Owner's Manual

Sublime 24/48

Sublime is a **Techmaster** console with submasters.
Below are the simple steps to program submasters for the **Sublime**

Sublime "Submasters (option)."

It's as simple as 1, 2, 3 (almost).

- 0 - Set all submaster pots to 0
- 1 - Set the look you want on the channel pots
- 2 - Press record (the record light lights)
- 3 - Press the bump button under the submaster pot to
which this look is assigned.
(the record light goes out).
