MEGA LITE®

ZIPSTRIP
WW40

iCANDY LUMINAIRES

Product Description:

The ZIP Strip WW40, with its 40 pixels of Warm White narrow beam LEDs, is a powerful tool that allows you to create warm white light curtain effects. Whether you want to add some atmosphere to a venue, dress the stage in vibrant, elegant white beams, or enhance a Dancefloor with engaging warm white, the ZIP StripWW40 is perfect. This slim fixture is designed to improve your production without exceeding your budget. It is lightweight, compact, and easy to mount with its compact three-hole yoke. Despite having no moving parts, it can create the illusion of high-speed movement by chasing the pixel in various groups and speeds. With four control profiles, you can use a simple DMX controller or the most advanced pixel matrix systems to take complete control of your pixels. The ZIP Strip also comes in a Red, Green, and Blue LED version, giving you even more options over your lighting effects.

Narrow, Warm White Beam

40 3º Warm White LEDs that can be combined to mix an extensive array of color combinations.

Light Curtain Effect

3º beams create a lighting curtain effect that expands the further you go to dress your production in Warm White.

Individual Pixel Control

Forty pixels that give the fixture its name as the pixels Zip through the air. Pixel map your stage venue or production to create the looks you want.
