Art-Net (8), DMX (4) Universe Lighting Controller

CueSlayer™ offers real-time control of 8 universes (4,096 channels) via Art-Net or 4 universes (2,048 channels) through its DMX outputs, making it ideal for large and complex lighting setups.

Intuitive Design

The control panel includes 3-color dimmable backlit buttons (red, blue, or purple), 4 backlit encoders (red), and 15 faders and 15 playback keys, each with 80 pages for easy programming.

Touchscreen, Keypad, & Effects

Its high-resolution 15.6-inch LCD touch screen and keypad control the groups, presets, macros, and effects. The built-in color picker and RGB & CMY mixing offer dynamic, precise control.

Connectivity

Its built-in WiFi enables remote control via mobile or tablet apps, while MIDI I/O connects external devices, and its USB 2.0 ports can support an external touch screen, mouse, or keyboard.

Backup Capabilities

Show files can be saved to external USB drives for expanded storage, ensuring reliable data management and secure, accessible backups for your projects.
