

ENCORE FR20 DTW

Compact 2-inch Fresnel fixture
with Dim to Warm feature

Part of the Encore stage lighting series, the Encore FR20 DTW lighting fixture is equipped with a 2-inch Fresnel lens and powered by a 17W warm white LED engine. It produces a soft-edged beam for stage, theatre and commercial use at 3000K. It comes with barn doors to adjust the beam dispersion and a manual knob to change the dimming from 100% to 0% with a dim to warm feature. It is also Triac dimmable - compatible with ADJ dimmer packs or Lutron and Leviton wall dimmers.

The Encore FR20 DTW comes equipped with a hanging bracket, barn doors to manually shape the beam of light, a frost filters to change the beam angle from 19-degrees to 45-degrees, gel frame to add a color gel (sold separately) and a safety cable.
