infinipix™ lil' spektro

Modular-Designed 3-in-1 RGB LED Effect & Tripod Stand

Dynamic RGB Effects

The Infinipix™ Lil' Spektro features 196 x RGB 5050 SMD LEDs arranged across seven 10 x 10 cm blocks, each split into four zones for smooth gradient and chase effects. Multiple fixtures can link together side-by-side or vertically for creative configurations, while its bright, wide 120° viewing angle delivers vivid eye-catching scenes, perfect for any application.

Refined Design

This fixture pairs perfectly with Blizzard's original Infinipix™ Spektro, offering the same static colors, built-in programs, sound-active modes, and pixel-mapping options. It includes brackets for rigging plus a tripod for freestanding use, while its onboard menu, 5-pin DMX in/out, and PowerCON® TRUE1-compatible in/out connections ensure quick setup and reliable operation.

Warranty

And of course, the Infinipix™ Lil' Spektro is backed by Blizzard's 2-year limited warranty.

Main Features

- 196 x 3-in-1 RGB 5050 SMD LEDs
- 7 blocks (10 x 10 cm), each with 28 LEDs
- 4 horizontal zones per block for smooth effects
- 120° wide viewing angle
- 0–100% dimming and variable strobe control
- Vertical or horizontal secure fixture linking
- Includes mounting brackets & tripod stand
