

PATHPORT IP65 DMX/RDM ETHERNET GATEWAY

Models shown: PWPP IP65 P8

WARRANTY

3-year limited warranty. This is the only warranty provided and no other statements in this specification sheet create any warranty of any kind. All other express and implied warranties are disclaimed. Complete warranty terms located at: www.acuitybrands.com/support/warranty/terms-and-conditions

NOTE

Actual performance may differ as a result of end-user environment and application. Specifications subject to change without notice.

Pathport DIN-mount 4 and 8-Port Models support SixEye cloud-based remote management

OVERVIEW

The Pathport® series of DMX/RDM Ethernet Gateways are the heart of DMX distribution.

Connect DMX512 control devices and send data over an Ethernet network to DMX512-capable end-devices such as intelligent lighting fixtures, LEDs, dimmers, and more. Each port can be configured as an Input or Output as needed.

The IP65 DMX Gateway, a 2, 4, or 8-port PoE Pathport, in a water resistant IP65 rated enclosure designed for permanent installation. Suitable for venues with fountains, water displays, and any outdoor applications like marquees, Facades, and parking garages. They are configured using the free downloadable software, Pathscape.

Advanced features include extensive protocol support, slot-by-slot patching using multiple sources, cross-fading on priority change, and signal loss behavior. Different Ethernet protocols may be merged together and prioritized. Status LEDs provide instant confirmation of port activity.

FEATURES

- Convert DMX512 to Ethernet protocol for distribution
- Convert Ethernet protocol to DMX512 for end-devices
- Two, Four, or Eight DMX512 ports, individually configurable
- LED Indicators for Port Direction, Power, Ethernet link activity, and Identify
- DMX output configured as whole universes or custom slot-by-slot patch
- Map up to eight control sources to each output slot, with merge and/or priority options for each source
- Acts as E1.20 RDM controller, when used with free Pathscape configuration software or ANSI E1.33 RDMnet compliant controllers
- User-configurable DMX output speed and signal loss behavior
- Supports the following Ethernet sending and receiving protocols:
 - Pathway ssACN (Secure sACN)
 - E1.31 streaming ACN (sACN)
 - Art-Net
 - Pathport Protocol
 - ShowNet
- Operates on Power-over-Ethernet (PoE) or auxiliary 24-48VDC input
- Contact closure input configurable per port to Pause RDM or DMX Force Hold (P4 or P8)
- microSD card slot allows backup or restore of device configuration (P4 or P8)
- Also available in Wall-mount (PWPP WM), DIN-Mount (PWPP DIN), and Portable (PWPP DT) form factors
- IP65 rated corrosion resistant cast aluminum enclosure.
- Suitable for exterior or interior applications where water may be present

ORDERING INFORMATION
