

Description:

The IW210 is a dual 10" in-wall sub with an integrated, sealed back box. Easily installed post-construction due to its small size, the IW210 also ships with a magnetic, no-bezel, paintable grille. The positive clamping system isolates the subwoofer from the substrate, greatly reducing the transfer of vibration.

Features:

- Retro-fit compatible
- Magnetic, no-bezel and paintable grille
- Patented Positive clamping system mitigates transfer of vibration
- Integrated, sealed back box

Applications:

The IW210 is designed for home audio use.

Warranty Information:

The IW210 comes with a limited ten (10) year warranty. Products not sold through an authorized dealer/distributor will not be supported by the factory warranty. Warranties are non-transferable.
