5-in-1 LED Pixel Bar with Electronic Clear/Frosted Lens

Up to 16 Pixel Groups

The StormChaser™ SuperCell Pro takes the original SuperCell design to the next level, featuring a total of 384 x 0.5W RGB+CW+WW 5-in-1 LEDs for full-spectrum color and superior white output. Its electronically controlled smart lens shifts seamlessly from clear to frosted, allowing smooth transitions between bold pixel effects and soft, diffused color.

Pro-Level Features

Its modular, interlocking housing allows multiple fixtures to link seamlessly end-to-end, while the included tripod stand provides quick, stable vertical freestanding setup. It also offers an intuitive OLED control menu with RDM support, +5V USB power output, dual mounting brackets, 5-pin DMX in/out, and PowerCON® TRUE1-compatible power in/out connections.

Warranty

And of course, the StormChaser™ Supercell Pro is backed by Blizzard's 2-year limited warranty.

Main Features

- 384* 0.5W 5-in-1 SMD 5050 LEDs (RGB+CW+WW)
- Electronically controlled clear/frosted smart lens
- Built-in programs and pixel groups (1/2/4/8/16)
- Virtual color wheel effects
- Smooth electronic dimming
- Multiple user selectable dimming curves
- RDM (Remote Device Management)
- 4-button control menu with OLED display
- +5V USB out for wireless accessories (not included)
- Interlocking housing design
- Dual mounting brackets and locking knobs
- Free-standing setup with included tripod stand
- 5-pin DMX input and output
- PowerCON® TRUE1-compatible power in/out
